

# SEAHAWK DIGITAL READ-ALOUDS

## FACULTY INNOVATION GRANT

*funded by the Aspen Institute*

Professor Christine Rodriguez crowanro@broward.edu

### Goals and Objectives

This project targets students enrolled in the Bachelor of Science in Education Program working toward an ESOL endorsement. The participants develop instructional strategies to enhance literacy, language and technology growth for English Language Learners.

### Timeline

- Purchase materials
- Model instructional strategies
- Collect deliverables
- Document results
- Share results with the community stakeholders

### Innovation

Design personalized lessons specifically created for English Language Learners by implementing technology to teach literacy through QR Codes.

### Description

Students from TESOL courses will help develop a Family Literacy event through Career, Technical, Adult and Community Education ESOL classes to promote family reading.

### Materials

- Leveled Reading Books
- 5 Apple iPads
- QR Code Procedures

### Anticipated Outcomes

- Create a community mindset to promote Family Literacy in ESOL
- Display data, QR Codes, and personalized lessons college-wide
- Continually improve best practices in literacy, language and technology
