

**Summary**

Undergraduate research continues to take on an increasingly important role as students are required to present their findings through professional poster presentations. SRIP proposes to help students succeed through a program of targeted research classes, equipment and supplies to print posters, and inclusion of work in the Seahawk Scholar Repository.

(Broward College, 2017)

**Student Research Showcase, April 2017**

(Broward College, 2017)

**Project Outcomes**

- Develop information literacy and digital literacy skills by preparing students for university-level research and presentations.
- Preserve the best posters into the repository as a permanent record of achievement, useful for future academic objectives and future employers.
- Demonstrate concepts of open access and intellectual property rights.

(ACRL, 2015)

(Broward College, 2017)

**Project Description**

SRIP is a research-focused, collaborative plan to support student research across all BC Pathways. SRIP proposes to provide additional student support by embedding Faculty Librarians in students' research process in several phases.

(Broward College, 2017)

**Goals**

- Create a sustainable student research environment.
- Provide technology and equipment to showcase student research.
- Provide an opportunity for library faculty to collaborate with teaching faculty to support course learning outcomes.
- Teach information literacy sessions with specific learning outcomes
- Assess student satisfaction and skills confidence with the Research Readiness Self-Assessment.

(Broward College, 2017)
